Ministry of Community, Sport and Cultural Development

2015 CARIP Climate Action/Carbon Neutral Progress Survey Public Report Attestation

As per the CARIP guidance, the Financial Officer is required to submit this attestation form to attest that:

 On or before June 1, 2016, the information reported in the 2015 CARIP Climate Action/Carbon Neutral Progress Survey submitted online to the Province has been made public.

The Financial Officer must complete and sign this attestation form by the applicable deadline and email a scanned copy to the province at infra@gov.bc.ca.

2015 CARIP Climate Action/Carbon Neutral Progress Survey Public Report Attestation Form — DUE on or before June 1, 2016

I declare that the information contained in the 2015 CARIP Climate Action/Carbon Neutral Progress Survey submitted online to the Province on June 7, 2016 for District of Tumbler Ridge was made public on June 1, 2016.

Name, Title (print) CFO Chris Leggett

Climate Action Revenue Incentive (CARIP) Public Report for 2015

Local Government:

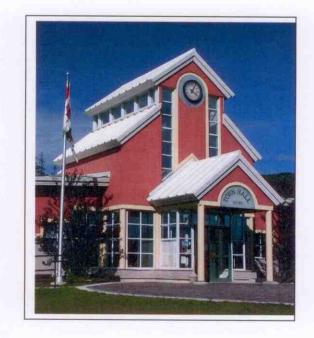

DISTRICT OF TUMBLER RIDGE

Report Submitted by: Name: CHRIS LEGGETT

Role: CHIEF FINANCIAL OFFICER

Email: CLegett@dtr.ca Phone: (250) 242-4242

Date: June 1, 2016

The District of Tumbler Ridge has completed the 2015 Climate Action Revenue Incentive Program (CARIP) Public Report as required by the Province of BC. The CARIP report summarizes actions taken in 2015 and proposed for 2016 to reduce corporate and community-wide energy consumption and greenhouse gas emissions (GHG) and reports on progress towards achieving carbon neutrality. There is also an opportunity to report on climate adaptation actions.

2015 BROAD PLANNING ACTIONS

Broad Planning Actions

Community-Wide Actions Taken in 2015

Broad planning refers to high level planning that sets the stage for GHG emissions reductions, including plans such as Official Community Plans, Integrated Community Sustainability Plans, Climate Action Plans or Community Energy Emissions Plans. Land use planning that focuses on Smart Growth principles (compact, complete, connected, centred) plays an especially important role in energy and GHG reduction.

CO	
	Continue replacing lights with LED's. Continue exploring methods to make the District facilities
	more energy efficient as a whole.

Snapshot Questions	
What GHG reduction targets are included in your local government's Official Community Plan or Regional Growth Strategy?	No
Are you familiar with the Community Energy and Emission Inventory (CEEI)?	Yes

Does your local measure progre	government use the Community Energy and Emissions Inventory (CEEI) to ess?	Yes
Which of the fo implementation	llowing does your local government use to guide climate action	
•	Community Energy and Emissions (CEE) Plan	No
•	Climate Action Plan	No
	Integrated Community Sustainability Plan	No
•	Official Community Plan (OCP)	No
	Regional Growth Strategy (RGS)	No
•	Other:	1 1
Does your local	government have a climate action reserve fund?	No
Does your local	government have a Corporate Climate Action Plan?	No

2015 BUILDINGS AND LIGHTING ACTIONS

Building and Lighting Actions

Low-carbon buildings use the minimum amount of energy needed to provide comfort and safety for their inhabitants and tap into renewable energy sources for heating, cooling and power. These buildings can save money, especially when calculated over the long term. This category also includes reductions realized from energy efficient street lights and lights in parks or other public spaces.

Co	mmunity-Wide Actions Taken in 2015
	Lighting replaced in Arena, Curling Rink and Pool with LED lighting at a cost of \$119,935.44.
	Lighting in Library replaced with LED lighting at a cost of \$41,606.10.
	Electrical system at RV Park Upgraded at a cost of \$17,582.87.
	Began replacing Pool Pumps and Equipment at a cost of \$25,433.56.
	Cobra Head Lighting Removal (Street Lights) at a cost of \$83,105.14.
	Recreation Centre Interior lighting upgrades at a cost of \$17,407.56.
	Upgrade Public Works Shop lighting at a cost of \$13,584.73.
Community-Wide Actions Proposed for 2016	
	Replace Lighting at Fire Hall with LED lighting with budgeted expenditures of 16,300.00.
	Cobra Head Lighting Removal (Street Lights) with budgeted expenditures of \$265,559.00.
	Community Centre LED lighting with budgeted expenditures of \$58,000.00.
	Recreation Centre Interior lighting upgrades with budgeted expenditures of \$7,592.00.
	Continue lighting replacement in Arena, Curling Rink and Pool with budgeted expenditures of \$40,396.00.
	Complete replacement of lights with LED lighting in Library with budgeted expenditures of \$9,500.00.
	Complete replacement of Pool Pumps and Equipment with budgeted expenditures of \$110,000.00

Co	rporate Actions Taken in 2015
	Work began on replacement of insulation in Town Hall and Fire Hall assessment at a cost of \$4,750.00.
	Work began on a full Town Hall building envelope assessment at a cost of \$5,400.00
Co	rporate Actions Proposed for 2016
	Work will continue on the Town Hall Building envelope assessment with budgeted expenditures of \$55,000.00
1	Ongoing development of District Asset Management Plan.

2015 ENERGY GENERATION ACTIONS

Energy Generation

A transition to renewable or low-emission energy sources for heating, cooling and power supports large, long-term GHG emissions reductions. Renewable energy including waste heat recovery (e.g. from biogas and biomass), geo-exchange, micro hydroelectric, solar thermal and solar photovoltaic, heat pumps, tidal, wave, and wind energy can be implemented at different scales, e.g. in individual homes, or integrated across neighbourhoods through district energy or co-generation systems.

Snapshot Questions	
Is your local government developing, or constructing a district energy project?	No
Is your local government operating a district energy system?	No
Is your local government developing or constructing a renewable energy project?	No
Is your local government operating a renewable energy project?	No
Are you aware of the Integrated Resource Recovery guidance page on the BC Climate Action Toolkit (insert link here)?	No

2015 GREENSPACE/ NATURAL RESOURCE PROTECTION ACTIONS

Greenspace/Natural Resource Protection refers to the creation of parks and greenways, boulevards, community forests, urban agriculture, riparian areas, gardens, recreation/school sites, and other green spaces, such as remediated brownfield/contaminated sites as well as the protection of wetlands, waterways and other naturally occurring features.

Continued Leasing of Community Garden space in Tumbler Ridge. RV Park upgrades done at a cost of \$36,342.19. Upgrade Soccer Field at a cost of \$9,759.16 Upgrade Veteran's Park to community standards at a cost of 22,335.15. Murray River Study to ensure river is protected at a cost of \$10,00.00 Community-Wide Actions Proposed for 2016 Continued Leasing of Community Garden space in Tumbler Ridge. Continue Hazardous trees removal. Continue with fire mitigation program with a budgeted cost of \$12,000.00.		mmunity-Wide Actions Taken in 2015

2015 SOLID WASTE ACTIONS

Solid Waste

Reducing, reusing, recycling, recovering and managing the disposal of the residual solid waste minimizes environmental impacts and supports sustainable environmental management, greenhouse gas reductions, and improved air and water quality.

Co	ommunity-Wide Actions Taken in 2015
	The District actively encourages its residents to reduce solid waste by such activities as recycling and composting. Residents who wish to may visit the landfill site and retrieve material or items they believe may be re-used.
	Deposit on purchase of automate recycling baler which will improve efficiency in the Districts' recycling program at a cost of \$87,765.00.
Co	mmunity-Wide Actions Proposed for 2016
	Purchase of an automated recycling baler which will improve efficiency in the Districts' recycling program with a budgeted cost of \$90,200.00.
	Purchase Solid Waste bins that a larger the current bins. The larger ones require less frequent emptying.
	The District actively encourages its residents to reduce solid waste by such activities as recycling and

believe may be re-used.

2015 CLIMATE CHANGE ADAPTATION ACTIONS

Climate Change Adaptation

For local governments, adaptation to a changing climate can take the form of changes in policy, management, technology and behaviour that minimize negative impacts or exploit opportunities. It can involve both "hard" and "soft" solutions, including: changes in infrastructure engineering, planning, zoning, bylaws, and public education.

Community-Wide Actions Taken in 2015

Street Sweeper purchased at a cost of \$216,636.05. This new unit is more fuel efficient than the previous one, and produces less dust both for the operator as well as for the community, resulting in improved air quality during sweeping operation.

2015 CARBON NEUTRAL REPORTING

Reporting Emissions

Did you measure your local government's corporate GHG emissions in 2015? (Yes/No)	Yes
If your local government measured 2015 corporate GHG emissions, please report the number of corporate GHG emissions (in tonnes of carbon dioxide equivalent) from services delivered <u>directly</u> by your local government:	4,859.38
If your local government measured 2015 corporate GHG emissions, please report the number of corporate GHG emissions (in tonnes of carbon dioxide equivalent) from contracted services:	N/A
TOTAL A: CORPORATE GHG EMISSIONS FOR 2015	4,859.38 tCO2e

Reporting Reductions and Offsets

To be carbon neutral, a local government must balance their TOTAL corporate GHG emissions by one or a combination of the following actions:

- undertake Option 1 Projects (GCC-supported)
- undertake Option 2 Projects (alternative) community GHG emissions reduction projects that meet project eligibility requirements

purchase carbon offsets from a credible offset provider

If applicable, please report the 2015 GHG emissions reductions (in tonnes of carbon dioxide equivalent (tCO2e)) being claimed from Option 1 GHG Reduction Projects:

OPTION 1 PROJECTS

	REDUCTIONS
Energy Efficient Retrofits	
Solar Thermal	
Household Organic Waste Composting	
Low Emission Vehicles	
Avoided Forest Conversion	
TOTAL B: REDUCTIONS FROM OPTION 1 PROJECTS FOR 2015	tCO2e
If applicable, please report the names and 2015 GHG emissions reductions dioxide equivalent (tCO2e)) being claimed from Option 2 GHG Reduction Processing 10 of the control	(in tonnes of carbon rojects:
OPTION 2 PROJECT NAME	REDUCTIONS
TOTAL C: REDUCTIONS FROM OPTION 2 PROJECTS FOR 2015	tCO2e

If applicable, please report the number of offsets purchased (in tonnes of carbon dioxide equivalent (tCO2e)) from an offset provider for the 2015 reporting year:

(NOTE: DO NOT INCLUDE ANY FUNDS THAT MAY BE SET ASIDE IN A CLIMATE ACTION RESERVE FUND)

OFFSET PROVIDER	25211071011
	REDUCTIONS
TOTAL D: OFFSETS PURCHASED FOR 2015	tCO2e
	ICOZE

tCO2e

Corporate GHG Emissions Balance for 2015

Your local government's Corporate GHG Emissions Balance is the difference between total corporate GHG emissions (direct + contracted emissions) and the GHG emissions reduced through GCC Option 1 and Option 2 projects and/or the purchase of offsets.

CORPORATE GHG EMISSIONS BALANCE FOR 2015 = (A - (B+C+D)) = tCO2e

If your Corporate GHG Emissions Balance is negative or zero, your local government is carbon neutral.

CONGRATULATIONS!

GCC CLIMATE ACTION RECOGNITION PROGRAM

Green Communities Committee (GCC) Climate Action Recognition Program

The joint Provincial-UBCM Green Communities Committee (GCC) is pleased to be continuing the Climate Action Recognition Program again this year. This multi-level program provides the GCC with an opportunity to review and publicly recognize the progress and achievements of each Climate Action Charter (Charter) signatory. Recognition is provided on an annual basis to local governments who demonstrate progress on their Charter commitments, according to the following:

Level 1 - Progress on Charter Commitments: for local governments who demonstrate progress on fulfilling one or more of their Charter commitments

Level 2 - Measurement: for local governments who have measured their Corporate GHG Emissions for the reporting year and demonstrate that they are familiar with the Community Energy and Emissions Inventory (CEEI)

Level 3 - Achievement of Carbon Neutrality: for local governments who achieve carbon neutrality in the reporting year.

Based on your local government's 2014 CARIP Public Report, please check the GCC Climate Action Recognition Program level that best applies:

Level 1 - Progress on Charter Commitments	
Level 2 - Measurement	
Level 3 - Achievement of Carbon Neutrality	(A)
Not Sure
